

Gayal Ranchagoda

Software Engineer

+94 715 300 733 | gayalranchagoda@gmail.com | LinkedIn | GitHub

Professional Summary

A dedicated Software Engineer with **2 years of overall experience**, including **6 months of hands-on experience working with the WSO2 Identity and Access Management (IAM) team**. Experienced in integration and software development, with strong problem-solving skills and the ability to quickly adapt to new technologies. Committed to delivering high-quality, impactful solutions and continuous professional growth.

Experience

Software Engineer – EVOLT Australia (Present)

- Full Stack Developer working on enterprise-level web applications.
- Developed Trainer Mode feature as part of the core system.
- Implemented authentication, authorization, and role-based access control (RBAC).
- Developed and maintained backend APIs using Laravel 7.
- Built responsive frontend components using Vue.js.
- Wrote unit and controller test cases for web services.
- Fixed bugs and improved system performance in collaboration with the team.

Achievements: Successfully delivered the Trainer Mode feature to production and improved code stability through increased test coverage.

Jan 2024 – July 2024

Software Engineer Intern – WSO2 Lanka (PVT) LTD

Project: Identity Server

- Worked with the IAM team and learned core concepts including SSO, MFA, Federation, and Access Control.
- Gained hands-on experience with OAuth2, OIDC, and SAML standards.
- Assisted developer support operations for WSO2 Identity Server.
- Analyzed and resolved product-related issues with timely and accurate solutions.

Achievements: Developed a custom WSO2 extension and authored a Medium blog on integrating New Relic with WSO2 Identity Server.

Sep 2024 – Mar 2025

Software Engineer Intern – Avonet Technologies (PVT) LTD

- Developed the Auto Care application with authentication, service scheduling, and maintenance tracking.
- Technologies used: Spring Boot, React, MySQL, WSO2 Choreo, Asgardeo.

Projects

Employee Management System (Personal Project)

Developed an application to manage employee data, performance tracking, and report generation for efficient HR operations.

Technologies: Spring Boot, React, MySQL

Pet Care & Boarding – Happy Tails (3rd Year Group Project)

Built a comprehensive pet care management platform including pet sales, vet appointment booking, vaccination records, boarding services, chat support, online store, grooming, and care services.

Technologies: React, Node.js, MySQL, HTML, CSS, JavaScript

Train Ticket Booking System – International Rail (Client Project)

Developed a U.S.-based railway ticket booking platform integrating Distribution APIs. Enabled agents and consultants to manage bookings while providing admins with comprehensive management tools.

Technologies: Next.js, NestJS, TypeScript, AWS

Responsibilities: Backend development, system integrations, bug fixing, and UI implementation based on Figma designs.

Technical Skills

Languages: JavaScript, TypeScript, Java, PHP, C++

Frameworks: Laravel 7, Next.js, NestJS, Node.js, Express, Spring Boot, React.js

Web Technologies: REST APIs, JSON, XML

Version Control: Git, Bitbucket

Methodologies: Agile Scrum, Waterfall

IDEs: WebStorm, VS Code

AWS: IAM, DynamoDB, OpenSearch

Mobile: Dart, Kotlin, Flutter

Education

BSc. in Computer Science (2021 – 2024)

University of Colombo School of Computing, Colombo, Sri Lanka

G.C.E. Advanced Level (2019) – Physical Science Stream

Rahula College, Matara

Certifications

- React – The Complete Guide (Udemy)
- WSO2 Certified Identity Server Practitioner – V6
- Coursera – DevOps on AWS: Code, Build, and Test
- LinkedIn Learning – Introduction to Web APIs
- Great Learning – Docker Projects
